I really enjoyed spending time with and getting to know the CI team. The entire team was very helpful throughout the program and I always enjoyed the input that they were able to give. It was wonderful to be able to get added exposure and develop myself further as a professional because that is vital for any young person.

**BLAKE**
University of Michigan

I have a lot to thank CI for. They put in a lot of work for you – they have great drive and passion to help people out with their careers.

**SAM**

The internship was a taster for me and I was offered a full-time position following the program. I enjoyed my internship so much that I accepted the offer.

**RACHEL**

There are skills that you can only learn in a hands-on environment through an internship and CI rounded off my experience with the resume workshops and career-oriented seminars.
